FINE TRIBUTE TO "CITIZENS."

Great Reception to Junior Republic Founders.

Bright Girl Makes a Witty, "Catchy" Speech.

Inauguration of President Comes Thursday.

If anything were needed to show that a people of Los Angeles are in full mpathy with the California. George infor Republic it was supplied by the eat audience that filled, Simpson utilizerium last night. It was as enustantic and sympathetic as it was age, and the citizens of the new rebile acquitted themselves well. Justice H. H. Klamroth of Pasadena, estident of the local association, presided at the meeting, and "Daddy" orgs and Judge Wilbur made short asches, but it was really a try-out of the officials of the Junior Republic, devery "fellow," including Mary obstein, "made good" in the face of a large audience, for when speaking "the bunch," or "the fellows," the its are always included.

After the superintendent and the esident and vice-president had made seches, Mary Hoistein, who has edd the position of Secretary of State the Preeville Republic, was presided. She is a self-possessed girl loui 17 years old.
"You most likely think that the boys a the whole thing in the republic."

21 inches tall; best imported all ball jointed doll; bisque head, moving eyes, real eyelashes, sewed curly wig, good shoes and stockings, light or dark hair. No mail or 'phone orders.

EVERT GIRL HAS CHANCE.

Every girt has a chance. It's not i dishwashing and scrubbling pots id pans, but a girl can learn dressaking and cooking and other things, id can get an education. I have ne to school and am now in the high bool, and I expect to go to college me day. [Applausa.] I don't between the school and service of the school and service when there's mething higher to aim for." Again the brought great applause, is a good talker, and this is but portion of her "catchy" speech. As a finished she brought forth roaring ears by saying:

If just wanted you to know that the years not the whole thing." illender Nat Bedford looked "natty" ough, as he was introduced to make first speech of the evening, ciad in ball-dress suit.

sublic." he began, and then he briefly xplained what the republic is.
"It is a republic where the citizens secone of age at 14, instead of 21, and n all other respects it is the same as my other respects it is the same as my other respects it is the same as my other respective it is the same as my other respective it is the same as my other respective. It is the same as my other respective where we into you have no idea what that means at the follow who has taken the chance and I'm one of them.

"When a follow first comes he is apt on the reliew, they generally run way, only to be brought back. I've sen through it all. The average time pent at the republic is eighteen months; six months in trouble, and six sonths getting out of trouble, and six conths helping the other fellow.

ALL AMERICANISM.

pent at the republic is eighteen months; six months in trouble, six months in trouble, six months betting out of trouble, and six conths setting out of trouble, and six conths helping the other fellow.

ALL AMERICANISM.

The republic teaches nothing but mericanism, and interferes with no see political or religious bellef. Nothing the cannot est, and a boy ceases be a here simply because he has no time."

In East.

News that Mrs. Paul H. Blades, well known in Los Angeles literary and club circles, had died suddenly at 5 a.m., at the home of the restriction, and the home of the restriction of the large of the l

Bedford explained that in case viction of crime, the culprit is seed by the boy judge, and, if shed, he may appeal to the Su-Court, which is composed of the of Trustees, and their decision at As both Judge Wilbur and a Klamroth are members of this it can be seen that a legal re deal" will be the lot of every deal" will be the lot of every seriously sick and not expected to live. SAN DIEGO, March 16.—[Exclusive Dispatch.] George A. Pettibone, the Western Federation of Miners' official; ill at St. Joseph's Sanitarium, in this city, where he has been a patient for four weeks. He is suffering from acute biadder trouble and general debility, which, he mays, was caused by his long confinement on the charge of complicity in the murder of former dov. Steunenberg of Idaho.

unny Jim." He came up smiling, and d:
Ladies and gentlemen: This is the send time I ever spoke before a swd like this, but I don't think I'm raid, anyhow."
When the applause ceased, he proded to explain some of the inner raings of the Junior Republic, namp as one of the chief differences been it and the ordinary republic, the that there is a law against smokt. He taiked at random and caused by saying:
I didn't prepare anything for tothi; this is just a little 'scratch up.'"
SPIRIT OF LOYALTY.

"I didn't prepare anything for tonight; this is just a little 'scratch up.'"

SPIRIT OF LOYALITY.

Vice-President Roy Herbert said 'it
was not only a pleasure, but an honor
to be presented to such an audience.
He spoke of the spirit of loyalty to
the Junior Republic among its citisens,
and made humorous reference to the
'Industrial College' of the republicthe iall.

"I took a two months' course in that
institution," he said, "and it was a
fine thing for me. You just ask if,
Bedford what he thinks of the jall."

The last of the young officers to be
introduced was Judge Hyman Shamma,
He is a well-matured boy, and spoke
finerestingly in a general way of the
Republic, and told with evident pride
how Mary Holstein had "made good"
as secretary at Freeville. He said:

"No boy, of course, is all right the
minute he hits the Republic, but I tell
you when he comes out he's a good one
it just showed me that if I did the
right thing I'd have friends. When
you do something wrong, they don'
likes and hug you and say: Don't do
it any more, dearle, or anything like
that. Tou may go to jail, but you
learn a lesson you'll never forget, and
when you get out every fellow will
treat you as a friend."

The president and vice-president will
leave Arcade Station at 1:45, and it
is desired that as many persons as
possible will attend the ceremonies.

Yesterday the entire party of seventeen "citisens" was taken on an excursion to Long Beach, and after belag shown over Los Angeles in automobiles this morning, they will return
to San Fernando and prepare for
lease of reapiratory organs. When the
catarrh is cured, the general health is
industriated in the category
that the desired that as many persons as
possible will attend the ceremonies.

Business: Man Who Claims not to Be a Friend of Raymond Hitch-cock's False Accuser or Her Family Furnishes Necessary Bond of

Officers Drive Afleged Horse Thiof
Agrees Antelops Valley Far from
Habitation.

Deputy sheriffs of Kern and Los Angeles counties are scouring Antelops
Valley in search of William Waugh, formerly of Los Angeles, who is accused of stealing a valuable team of horses from W. G. White of Off. Center, Kern county. Waugh was traced to brosse from W. G. White of Off. Center, Kern county. Waugh was traced to brisse of the county. Waugh was from the false accuser of Raymond Hitchcock, who was held in \$500 holl on chross from W. G. White of Off. Center, Kern county. Waugh was traced to brosse from W. G. White of Off. Center, Kern county. Waugh was traced to brosse from W. G. White of Off. Center, Kern county, who came from Bakersfield to claim them After the discions of the animals. He then left in the direction of the desert.

The team, a handstome pair of grays, was found yesterday by Deputy Sheriff Weins of Kern county, who came from Bakersfield to claim them After selling the horses Waugh left Elizabeth Lake Monday, where the discounty was found yesterday by Deputy Sheriff Weins of Kern county, who came from Bakersfield to claim them After the least idea, and ideal to a ranch-house several miles from Neeman C. The team, a handstome pair of grays was found yesterday by Deputy Sheriff weins of Kern county, who came from Bakersfield to claim them After selling beth Lake on foot and walked to a ranch-house several miles from Neeman C. The team of the desert.

The officers have organised a man houst which will include the entire Anteloge Valley to the edge of the desert.

The officers have organised a man houst which will include the entire Anteloge Valley to the edge of the desert.

The main sip practically surrounded. The hunt is to be kept up until the entire northeastern corner of Loss Angeles have with the papers for the girl's was said that a lawyer hamed Cohen had appeared here with the papers for the girl's said papeared there with the papers for the girl's said papeared the factory here.

At the Tombs it was said

lawyer named Cohen had appeared there with the papers for the girl's re-lease, signed by Magistrate Barlow. On the margin of the release was written "G. T. Box 24." This, Magistrate Barlow said, meant Grand Tier, Box 24, Metropolitan Operahouse. The magistrate attended the opera last night, and placed that on the paper so that he could be found. He signed the release, he said, at the Operahouse.

TO AVOID TROUBLE.

WILL REMAIN WITH FRIENDS San Diego Council Leaves Appointment of Special Prosecutor to City Attorney.

RAN DIEGO, March 17.—The Council has repealed the ordinance under which L. E. Dadmun was employed as special prosecutor, and has adopted as special prosecutor. as special prosecutor, and has adopted a substitute one leaving the appoint-ment of a prosecutor to the City At-

SPULL STATEMENT

The spull statement of the spul

You in-door people-women or men-Cascarets are for you. They do what exercise does—what outdoor life and coarse foods dofor the bowels.

Your food, when digasted, is sucked into the blood through myriads of ducts in the bowels.

When the bowels are clogged, the refuse is stopped. It decays. Decay generates poisons. Then those myriad ducts suck the poisons into the blood.

More than half the ills that we suffer some in just that way.

The remedy is to clean out the bowels.

Not in a harsh way—not with salts, castor oil or eathertics.

But in a gentle and natural way—with Cascarets.

But this way is better yet:

Don't wait till the bowels are clogged. Keep them active.

Take one Cascaret the minute you need it. Carry a box in your pocket.

Cascarets are candy tablets. They are sold by all druggists, but sever in bulk. Be sure to get the genuine, with CCC on every tablet. The price is 50c, 25c and

NEWS AND BUSINESS.

sited the automobile for the day and wered it with cloth until it looked like young pasture. Then he invited harles Comiskey, president of the licago White Sox aggregation, Josepa arrell, J. P. Agnew and Edward Mogarty to join him in the green dragon de chase all the snakes out of Los An-

Indications are that the second Imperial Valley excursion, March 26, will be a great success. Already about one-half of the tickets have been sold and a party of at least 100 members is promised. The itinerary is similar to that of the former excursion. Those who intend to go to Rediands and Riverside. Saturday, on the Chamber of Commerce excursion, are requested to hand in their names before Friday, as Secretary Wiggins has to furnish exact figures to the railroad people and the Reception Committee at the cities to be visited.

The Garment Buyers' Association of Los Angeles has been made a permanent organization with a view to becoming a factor in the national association, with headquarters in New York City, The object of the association is to correct mercantile abuses, and institute reforms in buying and selling methods that will act for the benefit of merchant and patron alike George M. Babocok, head of the New York Cloak and Suit House, is president of the association, and Max Isaacs of the Unique, secretary and treasurer. Among the local stores represented are J. W. Robinson & Co., The Unique, Meyer Stegel & Co., Matheson & Berner, Lane Co., Jacoby Bros., New York Cloak and Suit House, Blackstone, Emporium, Broadway Department Store, Swelldom, Hamburger's, Hale's and Bullock's.

himself because he could not marry. And yet when a man marries he often merely does away with him-

In California the spirit of tolerance and good will sceeds that of any other part of the world. As a roof of it even the orange men celebrate St.

If La Follette is to speak before the Senate for a period of seven days it is another reason why we are glad we are not a part of that august but much persecuted body.

As President Roosevelt's terms draw near to a close it is seen that he hasn't had a bad day either physically or mentally since he first went to live in the White House.

"Fighting Bob" is far from being anything but a "live one" yet, and be has about 90,000,000 countrymen and countrywomen, native and naturalized, who will be glad to hear it.

The fleet will fire 100 guns as a salute in San Pedro harbor, and San Pedro hasn't anything better than fire crackers with which to make a reply. We've got to have these things changed

It is great news that the admiral will come ashe when the Connecticut anchors off the Los Angeles water front. Much as the people want to see the seet they want to see Pighting Bob more.

st. Patrick almost invariably brings rain to utpern California on his birthday. If a vote were taken we think St. Patrick would be patron saint of this section by a large majority.

We knew very well what we were talking about when we said Admiral Evans would get better just as soon so he reached California. He is getting tter already, and he isn't yet within several leagues of the line,

The "parade" as an institution appears to have ne out of fashion. It has been almost abundones as a feature of St. Patrick's Day and is seldom seen nection with Presidential campaigns. It may for the best, but, somehow, we miss them. THE TARIFF DID THIB.

There were made in the United States in the year 1996, some 25,000,000 gross of pearl buttoms. They added \$5,000,000 to the wealth of the country. Besides there came out of the shellfish, pearls worth \$1,000,000. The shells weighed 48,000 tons, for which the fisher folk got \$15.35 a ton. The waste material from the button factories went to furnish hems with material for egg shells. Thousands of men, women and children made a living out of this industry, from the fisher folk to the girls, who packed the buttons in boxes.

This is comparatively a new industry in this country. Most of us can remember when Germany and Austria supplied all these goods. None of our people made a cent out of the business, from those who fish up the mussels to the boxing of buttons. The chickens had to get their raw material by a much harder process of digestion. The imported buttom took millions of dollars away from the country.

country.

If the Republican party had never been born this industry would never have come to life. The old Democratic policy of letting men and women in foreign countries (who slave on 20 to 75 cents a day.) do all our work, would have kept these buttons coming from Germany and Austria. We would be spending millions in foreign markets for our huttons.

silks. They came from abroad until the Republi-cian party came into power. Under Demogratic rule we would still be in industrial bondage to foreign nations. We could pever have built our navy or cant our coast defense gans. Our raw material would be going abroad and coming back finished at a cost of twice to five times what we got for the raw ma-iertal. Our gold and silver would go across sess to even up the balance of trade. Rails and machinery would cost so much that our country would have re-mained underveloped. Instead of the richest people on earth, we would be a little hetter off than the Chinese; and instead of a possibition of 90,000,000 we would be a poor lot of abeats numbering half that figure.

HE MEMORY OF ST. PATRICK.

THE MEMORY OF ST. PATRICK.

As the world advances in civilization and religion it is seen that St. Patrick was one of the greatest of teachers and evangeliners. Upon this fact all scholars of whatever creed are now agreed. Stripped of every legend and doubtful tradition that cluster around his name—and they are almost innumerable—the authentic history of Patrick's nehievements are sufficient to mark him as among the foremost characters in the annals of the world. Yesterday the memory of Ireland's patron saint was celebrated the wide world over as it has always been celebrated wherever an Irishman looked out from either galace or hut to bid himself and his neighbors "the top o' the mornist." And where have the trails of ships or men gone that an Irishman has not gone, also? They have followed the wars and they have followed constitutions with equal fervor, dying for every cause that needed men to die for it, and upholding law wherever any one next to a mystery to know how she managed to rear so many sons and daughters. Even granting that

We suppose it can be accounted for only on the theory that they are so eager to be born and in small burry to die.

amail hurry to dis.

Nowhere, comparatively, was the memory of St.
Patrick celebrated with more enthusiasm than in
Los Angeles, last night, under the auspices of the
Ancient Order of Hibernians. The gathering exceeded in elegance almost any former affair of its
kind made here, and was made notable by the presence and the words of Bishop Conaty, who is at one
and the same time a great Irishman and a great
American. In these days of rampant socialism and
anarchy the Catholic hierarchy stands as a bulwark
against the faise doctrines of sociology and is performing a noble service to the nation. The vast
majority of frishmen being Catholics, it is safe to majority of frishmen being Catholics, it is safe to selieve that the red flag will gain few recruits from their ranks. The people of St. Patrick's country are to be congratulated on their religious leaders. They are men of spiendid stature, and we are pleased to know that the Bishop of Monterey and Los Angeles stands with the strongest and best of them all.

CRISIS IN ORANGE SEASON.

The citrus crop of Southern California for the current season will amount to about 20,000 carloads, probably a little more. The shipments to this time amount to about 12,000 carloads, leaving close to 20,000 carloads to go forward. Some of the best informed persons in the country, on this subject, say there are all of 20,000 carloads of oranges and lemone in the State today on the trees. Nearly all of

these are oranges.

The season has been most encouraging to the growers from its opening on November 1 to the present time, the middle of March. The shipments have been the largest ever sent out of the sec that period, and the prices have been excellent. Now comes a crisis for shippers. Instead of 50 to 100 cars a day, we are sending out 200 to 225 cars a day. cars a day, we are sending out 200 to 225 cars a day. The eastern market is taking them in a quite encouraging manner, but during the last few days, with the arrival of 200 cars of oranges a day in the different markets of the East, the prices shown in The Times the morning this article was written would average considerably below \$2.50 a box.

Let us see how this divides up. The growers want \$1 a box, and are entitled to it. They must have it, it costs not less than 50 cents a box to bring the fruit to maturity on the tree. The money invested in an acre of

on the tree. The money invested in an acre of oranges will average pretty close to \$1000 in Southern California at the present time. At 6 per cent. per annum we have here a charge of \$60 an acre for fair interest on the money invested. The pick-ing, preparing and packing the fruit for shipment, including the package, will not fall much below 30 cents or 35 cents a box. At the present time a great deal of the fruit has to go East under ice, and in a short time it all will need refrigerating. The freight, plus the cost of icing, is about \$1 a box. Thus we have the cost of the fruit laid down in the eastern markets running at from \$2.25 to \$2.35 a box. At \$2.50 the shippers are far from making a fair profit upon their business. When one considers all the risks in shipping this perishable fruit across the continent, the shippers are entitled to a good deal more money than that.

The eastern market was expected to easily absorb the bumper crop of the present season. The apple

was short all over the country; the supp dried fruits, including prunes, was by no means excessive, and all this pointed to a brisk demand for California oranges all through the late winter and early spring; but an unexpected change has over-

taken the industrial people of the country. The railroad men may there are 500,000 of them out of employment. There are probably close 16 1,000,000 people in the United States who a year ago were enjoying steady employment and higher wages than the world had ever known before, who today are eliber not working at all, or are working on reduced hours and generally reduced pay. These people last year could very easily pay 30 cents or 35 cents for a dosen oranges every week in the year, or twice a week, perhaps. Under the changed circumstances a great many of these people will not buy a half dosen oranges a month. The demand is nothing like what it was expected to be, and at high prices the demand would fall of still more. The only way to distribute the fruit at all is by putting the price at a pretty low figure to the consumer.

There is only one source to which to look for re-

There is only one source to which to look for refruit off the growers' hands and risk all the chances pay what the growers ought to get—\$1 a box. The matter has been taken up with the railroads in a matter has been taken up with the railroads in a tentative way, but the managers seem indisposed to lend an attentive ear. Some of them say: "Let the growers lower their price to 50 cents a box." The claim is unreasonable. The railroads last year took out of the orange business a gross revenue of about \$12,000,000. They stand to take approximately as much out of the enormous crop of this season, provided it is all marketed, even although the freight rate should be materially reduced. The shippers are of the opinion that unless this is done, the railroads will find themselves cut off from a

provided it is all marketed, even although the freight rate should be materially reduced. The shippers are of the opinion that unless this is done, the ralipode will find themselves cut of from a considerable amount of their revenus.

A plea like this a year ago would have been wild. The ralipods had sill the business they could handle. Freight cars were almost impossible to obtain, and the orange growers had often to wait inconveniently long periods of days to obtain refrigerator cars to ship oranges. Unfortunately for the country, under the present conditions, there are not simply enough, but too many freight cars, and there is no lack of supply of refrigerator cars, it would seem as if it would be a wise policy, as well as a just one, or, if you please, a generous one, for the just one, or, if you please, a generous one, for the railroads to look this matter very carefully over and very straight in the face. A concession on their part of, say 15 cents a box freight charges upon The cost of refrigerating is from \$75 to \$90 a car, and in past times when this cost was undoubtedly

and in past times when this cost was undoubtedly higher than today, the testimony of experts was that there was a profit on that business of \$40 a car. If the refrigerating charges were lowered as well as the freight charges, much reflef might be had.

Of course, the great interest of Southern California in this matter is that of the growers. It would seem as if the proper thing would be for the railroads to grant a reduction of 25 cents a box on freight; for those doing the icing to knock of \$20 or \$35 a car for that service; and then if the eastern market fails to absorb the truit fast enough at a price to give the shippers a fair profit on their enterprise, the next appeal would come to the growers to make a concession.

MOTTO ON COINS.

The House of Representatives has by a vote of 265 to 5 provided for replacing on our coins the motto, "In God We Trust." If this motto becomes legally restored it will please many who resented the

But a better thing than having the motto on the coins would be for the American people to engrave it on their hearts. There never was a nation on earth who should trust God with the same implicit confidence. There never has been a time since the first shot fired at Lexington that divine Providence next anot area at Lexington that divine Providence did not seem to show a special favor to this people. Indeed, we may go back to early colonial days and there we find the same protecting hand over all that concerned America. It was a special Providence that sent to our shores founders like those who crossed the ocean in the Mayflower, and men like Capt. John Smith, Waiter Raieigh and their followers.

Never was there a crisis in our history that the Never was there a crass in our history that the right man was not forthcoming to carry us through. It seems as if the divine wisdom had kept this continent cohesaled until the Old World had worked out its problems to a point where men were found capable of self-government and then sent the flower of this new humanity to America, where, cut loose from the worn-out civilization of the past, defects might be left behind, and the good and vigorous kept here to found the greatest of the nations.

The work is not all done. There are battles still The work is not all done. There are battles still

to fight, corruption to get rid of, good things to hold on to and to hand on to future generations. The men of the Mayflower, men like Capt. Gilbert.

Capt. John Smith, Raleigh, and most of these wh founded our colonies, could put their hand on thei heart and say, "In God We, Trust." Washington Jefferson, the signers of the Declaration of Inde pendence, the framers of the Constitution, the me who led the troops and the troops who carried the guns, all could sincerely say, "In God We Trust. Lincoln, Grant, Parragut, and rough and ready cap tains on land and sea could subscribe to this senti-ment.

the reception has been noticeably quickened. This was particularly evident at the meeting of the Executive Committee of the General Fleet Commitvesterday's Times with great comfort, as it con-trained the needed information on a number of im-portant details. This is not only true of the local committee, but also as far as the organizations at Venice. Redondo, San Pedro, Long Beach and other ocean front cities are concerned.

And now that the committees are able to go shead, now that the railroad companies have been given the dates which will enable them to make their final arrangements for the excursions, it is the duty— the pleasing duty—of the neonle of Los Angeles.

the dates which will enable them to make their final arrangements for the excursions, it is the duty—the pleasing duty—of the people of Los Angeles to make up the rest of the amount needed to defray the expenses of the splendid and unique entertainment programme which has been arranged by the Fleet Committee.

Now don't be bashful! The Fleet Committee will be just as glad to receive \$1 from the holder of a modest house an it was to get \$1000 from the Hotel Alexandria.

Paterson, N. J., and the whole Jersey State should get promptly to work and pass new laws, or get better fawyers for prosecuting attorneys. If the Paterson ordinances are so easy and the State laws will not reach the case, would not the Padeval laws under which the mails are carried do to stop the under which the mails are carried do to stop the dissemination of socialistic treason, such as that printed in the journal known as La Question Sociale? The red flag of anarchy does not mince matters. To kill the police by wholesale, to dynamite arsensis, if they cannot be torn open and the arms stolen, to set fire to whole cities in one grand bonfire, is the way this paper proposes to spread socialism. Yet the prosecutor of Paierson says that after diligent search he has been unable to find any law to suppress the wild publication. What has taken pos-

suppress the wild publication. What has taken pos-cession of the people's minds? There seems to be a streak of madness in the sentiment which lets every disturber of the public peace do as he pleases, and which clamors for the punishment of the big doers of big things.

Wednesday, Merch 18, 1908.

High o'er the market Japoter stands bright. Th guide the merchant's busy steps dright. The 78th day of the year. The 18-day-old

The 18th day of the year. The 18-day-old moon enters Libra and is in opposition to the sun. Jupiter is in benefic aspect.

More favorable in the afternoon than in the morning. Open new piaces of business, whether shops or offices, this day. Push all affairs.

Deal with merchants, bankers and salesmen. Buy and sell, but do not speculate. The auspices are good only for actual barter.

A fortunate day for the undertakings of elergymen and teachers.

Deal with persons engaged in the manufacture or selling of wool, woolen cloth and clothing.

Commence new undertakings in the afternoon. Travel for health.

A quarrel over a matter of nocial precedence threatens the peace of the woman with this birthdate. Let her avoid the dispute. It will bring no favorable issue, however pressed.

The man with his birthdate today will need to put forth all his efforts to keep his money or business.

forth all his efforts to keep his money or business. Watchfulness and extreme straightforwardness are vital for him this year. The girl born this day must be guarded against

undesirable company.

The boy born this day must be trained to fight for himself. He will succeed only by his own efforts, for he cannot rely on luck.

Bad News for Bob.

A Kentucky woman is asking for a divorce so that she can marry the ghost of Bob Ingersoi. And Bob always professed to believe that the dead were forever at rest.—[Washington Post.]

Smart Spring Silks

Chief interest, in the Silk section, seems to center about foulards and pongees, and of course the demand finds us amply prepared. Pavorites are

Showerproof foulards, in two grades, 22 and 24 inches wide; handsome soft materials, in twill and satin finish; absolutely spot proof, and they never wrinkle or tumble, split or break, like ordinary silk; navy, green, brown, black and white grounds, with dots and figures.

Colored rough silk suitings, in three qualities, 24 to 27 inches wide, are shown in all the favored spring shadings.

Imported pongees are here, too, in dozens of qualities, and widths from 26 to 34 inches; mostly in natural color.

Natural domestic pongees for those who don't care to buy the more expensive imported weaves, 24 to 35 inches wide.

Motorette silk in natural color only, appeals particularly to people who want an extra heavy, durable silk for hard service; 25 to 36 inches wide.

White Wash Goods

Not a bit too early to be thinking of light frocks for graduation, confirmation and like occasions. And women who buy now may not only save liberally, but will have ample leisure for putting on these dainty dresses all the touches that add grace and beauty to filmy fabrics, in themselves a delight to sec:

Plain and chiffon organdles, French lawns and Paris mouselines adapted themselves very gracefully to simple or elaborately frilled frocks, and they are selling at sharp reductions from prices originally very fair, during this week.

Phain and barred lawns, fancy walstings, firm, fine long-cloth, sheer naimooks and all the other wash weaves that come into constant use in sunny Southern California during the entire year, are to be found here in profusion.

Skirts Made to Measure **New Navy Serges**

Many particular women are gladly availing themselves of the opportunity we offer to have stylish skirts made up very inexpensively, indeed:

For two dollars and a half we give you choice of a wide variety of styles in spring skirts—from 5 to 12 and 15 gores, with bias folds, or in the new roll gore style; also plain pleated models—in short, practically say sort of a skirt you fasey, can be had at the one price.

We make a nominal charge for necessary findings—which include hangers, mohair braid about the hem, your material sponged and refinished, etc.

And there is only one condition—you must, of course, buy your materials here, selecting from anything in stock which retails regularly at a dollar or more a yard.

A new arrival which will be in great demand from now on is Washington navy serge—expressly for military and sailor suits, which will be more than usually popular along the coast this summer. And dainty light weight wool checks, hairlines and stripes or plaids, are offered today at a price very much lower than you'd expect to get such smart materials for.

Noteworthy

Notions

Whoever is well supplied with all the little things to help along with spring dressmaking will not be interested in notion savings but dressmakers and women who have not yet bought the odds and ends that make sewing easy and comforta-ble, will be early callers at the notion section today:

On special sale are pearf buttons, dress shields, fancy silk elastic; side hose support-ers, foundation collars and gir-

Spring Muslinwear

Tombs for Lodging Places.

It is surprising to strangers to find Egyptian families occupying some of the tombs which have been excavated and abandoned. It seems uncanny to see bables playing cheerfully about the doors of the tomb houses and to watch chickens running in and out as they do at the mud dwellings. When questioned about the tombs a dragoman said that those occupied as homes had been tombs of ordinary citizens and were of no value as show places for tourists. As some of them have several rooms extending into the rock, and as they are cool in the hottes: days of summer and warm in the cool days of winter, they are altogether desirable as homes. The Egyptians do not share the borror run about with pleces of mum-nand if they cannot dispose of to tourists they play with them, ummified foot or hand is so com-in Luxor that one may be pur-ed for a few cents.—[Leslie's

THE STURDIEST peoples of the earth drink beerdrink it from childhood to age. And those are the peoples who suffer least from nervousness and from dyspepsia.

When one needs more vitality, the Doctor says "drink beer."

The barley is food; the hops are a tonic. The trifle of alcohol is an aid to digestion.

The proper drinking of beer-but not the abuse of it-is good for the weak and the well. And not the least of the good comes through flushing the system; in getting rid of the waste.

But a beer to be healthful needs to be pure. And it must be well aged, else the after-result is biliousness.

That is why we are so careful with Schlitz. the necessary cost of our brewing to insure absolute purity. And we age the beer for months before marketing.

. It gives you the good without the harm.

Why the is to become the

Initations invariably follow in the path of success, and the "Ramish" has not escaped them. Cigarettes with name spelled differently, but sounding the same, have been pushed to the front in an effort to deceive the public and "catch" some of the enormous demand for this popular brand. One small manufacturer in Boston revived a brand known as "Ramish" and hurriedly imitated box labels to suggest the "Ramish" design. The evident object was to trade on the success of the "Ramish" or coerce us into buying his brand.

as expense of securing depositions of Indiana witnesses. The young husband was not in court, but presented an affidavit declaring his inability to pay the amounts asked and stating that he is getting but 150 per month from his father for his work. Mrs. Sturgle's attorneys were much but out by his absence, desiring, they said, to show that Sturgle is amply able to pay, that he had transferred 187 acres to his mother and that it is leased and he has the income from the same. Judge Crow, said he could enly act under the afflavits presented and that the things Mrs. Sturgle desired to show would have to be shown at the trial. She was allowed 356 for estaining depositions and the matter will come up Friday to be set for trial. Recause of the standing of the parties the case is attracting considerable attention.

DR. AND MRS. CARTER

If You Are Sick

It is because some of the organs of the body are not doing their work well. There is a lack of that nervous energy that gives them motion. Con-sequently you are weak, worn-out, nervous, irritable, cannot sleep; have headache, indigestion, etc. because there is not sufficient nerve force to keep the organs active and allow them to perform their natural functions, Dr. Miles' Nervine restores health because it restores

health because it restores this nervous energy.

"I have been eich for a year, and did not knew what was the matter with me. I tried many remedies and none of them proved of any value." I heard of Dr. Miles' Nervine. I produced a bottle, and before I had aken had of if I was better. I would have not till mad better. I would have the first of the medicine when I did not have not the medicine when I did not the medicine when I did not the medicine when I did not the five of my lady friends, and they well. I have since recommended it is five of my lady friends, and they have all thanked me for doing so, for it benefits them all."

Dr. Miles five will place note by your orangest, whe will glacentee that the first have since the most of the trief will refuse your money.

was paid in cash, one-third in real es-tate, and one-third by mortgage.

It is the intention of the new own-ers to improve the property soon with a forty-five-room apartment-house, in making this investment the purchas-ers took into consideration the pro-posed construction in the near future of the Fourth-street tunnel.

MAN HIT BY AUTO. MAN HIT BY AUTO.

As George F. Dezter of No. 519 West Sixth street stepped from a University car at Sixth street and Spring last night, he was struck by an automobile and thrown to the pavement. He sustained a fracture of the knee and was badly bruised. The chaufteur drove rapidly away and witnesses were unable to secure the number on the car. John Collins, an Inspector for the Los Angeles Railway Company, with the assistance of others, carried Dexter to the sidewalk. The police ambulance was called and Dexter was taken to the Receiving Hospital.

Republicans Enthusiastically Sing His Praises.

Adopt Ringing Resolutions on Great Policies.

Oranges Against Apples on the Big Favorite,

Representative Republicans of the fourth Ward gave character and enhusiasm to a meeting last night of he Fourth Ward Rosseveit-Taft Club.

Frank W. Bisir, president of the lub, who presided, spells enthusiasm a very feature, and he imparted a st of ft to his hearers. He started he hall rolling by presenting to the lub a fine portrait of Secretary Taft, the heart President of the United States, he gave a most interesting sketch of the life of Secretary Taft, and was restractedly cheered as he summed up his street.

white Middlecoff, the first speaker troduced, said he began attending spublican club meetings back in Missuri. "where a Republican has about much chance as a snowball in the suttern. California sunshine. He ged upon his hearers the importance taking part in the affairs of the name. which can only be done well by ginning in the ward organizations." A man who has anything in him." declared. "ought to be willing to she some sacrifice for his common unitry, or soon there will be no common country." He also declared that the masses of a Republican party are sethind the flectes of McKinley and Roosevelt, dithat Secretary Taft more nearly shedles the policies of-both than any her living man.

ORANGES AGAINST APPLES.

made.

He counseled the utmost harmony in the ranks of the party, and sounded a stentorian warning against apathy that takes it for granted that the other fellow can't win. He also expressed the most unlimited admiration for Secretary Taft, but prepared the may for a united following of the mary leader should some other man be chosen as the standard-bearer.

The spirit of last night's meeting saves no uncertainty as to the active art the Fourth Ward Club will pay the coming campaign, and Preside Elair stated that he hoped to see an example to Republicans in every and of the city.

MORE RAT WAS

MORE RAT WAR.

ps at Ocean Park for the Extermi-nation of Rodents in That City. OCEAN PARK, Murch 17.—Repre

seating the South Coast Civic League, Mrs. C. H. Ritchie has pleaded with the City Trustees to at once take steps or the extermination of rats on ac-count of the danger of bubonic plague terms being carried to the seas and count of the danger of bubonic plague germs being carried to the fleas and by them communicated to the residents of the beach. The matter of abating the nuisance was referred to a committee consisting of Trustees Hickey and Allen, who will make diffigant investigation and report with recommendations to the board.

Latke-street property owners have entered a protest with the City Trustees against the grading and oiling of that theroughfare, the contract for which work was recently awarded at \$2.81 per running foot. The request was that the lot owners might be permitted to do the work by private contract. Their contention is that the contract price is exorbitant, and cite that work of similar kind has recently been performed in Santa Monica for \$1.50 per foot. The time for protest having passed, no action was taken. The protestants say they will invoke relief through the courts.

D. H. Steele, J. W. Stacy and A. A. Jones are at the head of the Ocean Fark Ostrich Farm Company and will soon bering a number of birds here and establish them on a tract, where they will be exhibited and bred. The birds are now on the way from Arizona and are expected to be at home by the
